* third parties licences for AV clients are not included (MS Teams, Zoom, Cisco Webex, etc..) Microsoft Windows 10 License Enterprise is required

Security & confidentiality

With the increase of remote collaboration UCC solutions, the need for additional secure software rose in companies as well as in government and educational institutions. Online whiteboards offer the possibility to conduct creative workshops and interactive meetings virtually. With a modern software solution the online collaboration can enhance the real-time user experience and as a result, increase productivity among employees.

Mago is a state-of-the-art **GDPR_compliant** software solution for hybrid workplace & learning.

With Mago you have multiple options for **host your data** :

- **Dedicated/own instance** on MS Azure (you decide a region)
- **Mago shared instance** on MS Azure
- **On-premises** deployment

Your workspaces securely hosted on MS Azure, self-hosted or on-premises
